To Whom It May Concern:

I would like to take this opportunity to fully endorse Melody Rader and her team at Accountable Solutions.

Melody has been working with me for over two years now and has always gone above and beyond to be of help. She has been extremely resourceful regarding bookkeeping and other business issues.

I strongly feel that Melody has been a strong asset to my practice. I would recommend Accountable Solutions to any small business owner who wishes to have an experienced and pleasant adjunct to their administration.
